

Procedure to Activate Two-Factor Authentication on the Portal

Simplified Procedure

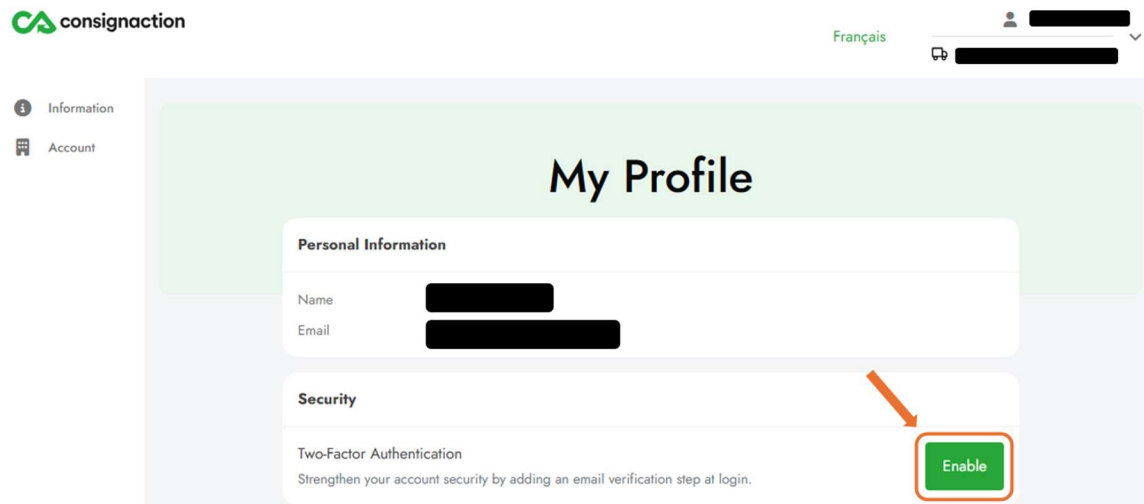

1. Click on your name at the top right of the screen, then on « My Profile ».
2. In the Security – Two-Factor Authentication section, click the « Enable » button.
3. A verification code has been sent to your email address. Enter it to continue. Note that the code expires after 10 minutes. Two-factor authentication will be set up automatically if the correct code is entered.
